हितगुज..

महोदय,

नमस्कार! प्रगत मोबाईल तंत्रज्ञान आणि माफक तसेच वेगवान इंटरनेट प्लॅन्स यामुळे डिजिटल मीडिया प्रत्येकाच्या आयुष्याचा अविभाज्य भाग बनला आहे. विशेष करून व्हाट्सअप मीडियाने संपर्काच्या कक्षा रुंदावल्याच नाही तर त्यात अमूलाग बदलही घडवून आणले. याच व्हाट्सअपचा वापर करून भारताला डिजिटली अपडेटेड ठेवण्याच्या स्वप्नातून स्वराज्य डिजिटल मॅगझीनची स्थापना २०१७ साली करण्यात आली.

न्युज, जॉब, माहिती आणि मनोरंजन यासारख्या २०२३ सेवा स्वराज्य - डिजिटल मॅगझीनच्या माध्यमातून निःशुल्क पुरवल्या जातात. आज दहा लाखांपेक्षा जास्त समाधानी वाचक स्वराज्यचा आनंद घेत आहेत. अखेर पर्यंत १ कोटी वाचकांच्या दिशेने आमची वाटचाल होत आहे.

कुठलाही चाणाक्ष व्यवसायीक डिजिटल मीडियाला आपल्या मार्केटींग आणि ब्रॅण्डिंग बजेट मधुन कधीच वगळू शकत नाही हे विशेष. याच डिजिटल मीडियाचा भाग असणाऱ्या स्वराज्य - डिजिटल मॅगझीन सोबत आपल्या व्यवसायाची जाहिरात करण्याकरीता आम्ही आपणास आमंत्रित करत आहोत. आज पर्यंत हजारो व्यवसायीकांनी आपल्या दर्जेदार ब्रँडची जाहिरात स्वराज्यच्या माध्यमातून केली असून सर्वांना अपेक्षेपेक्षा जास्तच फायदा झाला आहे.

आपणही स्वराज्य - डिजिटल मॅगझीन द्वारे आपल्या व्यवसायाची जाहिरात करा आणि पोहोचवा आपला ब्रँड लाखों वाचकांपर्यंत.

धन्यवाद
टीम स्वराज्य

The domain name info is a generic top-level domain (gTLD) in the Domain Name System (DNS) of the Internet. The name is derived from information, although registration requirements do not prescribe any particular purpose.

Domain info has been operated by Afiliis since its creation. In 2003, it was the first gTLD domain to support IETF standards-based internationalized domain names.

This article is about the Internet domain.

The launching of info involved a "Sunrise Period" for trademark owners, followed by a "landrush" open to all, the first time such a process had ever been conducted for a new gTLD. This process received criticism for giving trademarks precedence over words that are generic in other contexts; for instance, the Caterpillar construction equipment company was able to register cat.info before more generic users, such as feline enthusiasts, were allowed to register.

Domain info has been the most successful of the seven new domain names, with over 5.2 million domain names in the registry as of April 2008. After the September 11, 2001 attacks in the United States, the Metropolitan Transportation Authority of New York switched to the easier to remember mta.info website to lead users to latest information on schedules and route changes on the area's transportation services. ICANN and Afiliis have also sealed an agreement for country names to be reserved by ICANN under resolution 01.92.

Info is an unrestricted domain, meaning that anyone can obtain a second-level domain for any purpose, similar to the domains com, net and org. This is in contrast to TLDs such as edu, or coop. Info is the only top-level domain that was explicitly created and chartered for unrestricted use, although various other TLDs resulted in this situation de facto. Info stands for information in about 37 languages, and is a neutral name.

Prior to launch, the names of countries were reserved from registration at the request of ICANN, to the consternation of those who had paid pre-registration fees to attempt to register these names in the landrush. ICANN's Governmental Advisory Committee, composed of country representatives from around the world applauded the move, the first by any major domain to protect the national interests of sovereign nations.

This process received criticism for giving trademarks precedence over words that are generic in other contexts; for instance, the Caterpillar construction equipment company was able to register cat.info before more generic users,

The TLD info was a response to ICANN's highly publicized announcement,[2] in late 2000, of a phased release of seven new generic top-level domains.
